Nothing has been scheduled with the congressional staff (that I have seen). OCIR is planning to schedule an internal conference call on Tuesday or Wednesday afternoon.

Thanks Ashley. Do you know when they want this to occur? I'm good on the first topic, but I'll particularly need prep on the second.

I'm think we should be prepared to include in the conversation.

Hi Pamela,

It looks like they are interested in oil and gas wastewater disposal in UIC wells. Do they also want to talk about POTWs?

All –

Sen. Feinstein's office has requested a briefing this week to discuss wastewater disposal in California and EPA's assessment of California's DOGGR agency

Staff would like to discuss recent news reports, including reports that EPA has found that DOGGR permitted hundreds of disposal wells in aquifers with potable water, that 98% of waste water samples from fracked oil wells exceed standards for benzene concentrations, and reports that companies have been disposing of wastewater in unpermitted open pits.

<http://www.latimes.com/local/lanow/la-me-ln-pits-oil-wastewater-20150226-story.html>

No commitment has been made to brief staff this week. I would like to schedule an internal call (Tuesday or Wednesday afternoon) to discuss before scheduling.
